

1948

TECHNICOLOR PRINT DELIVERY SPEEDED

Two years ago Technicolor started an expansion program from 160,000,000 feet per year print manufacturing volume to a goal of 320,000,000 feet a year by the end of 1948. Technicolor is already enjoying more than 50% of this increased capacity, which it is EMPLOYING ENTIRELY TO IMPROVE THE DELIVERY TIME OF PRINTS.

Domestic Deliveries

By the end of 1948 it is expected that Technicolor print deliveries will be back to normal, that the lapse of time until delivery of prints on the average will be about 5 months from the completion of photography and about 2 months from the time Technicolor receives the cut negative.

Foreign Deliveries

Interval between approval of the foreign sample print and delivery of foreign version release prints has been reduced to about 3 months and time required by Technicolor to prepare a foreign version sample print has been reduced to about 5 weeks. THE TIME OF DELIVERY OF TECHNICOLOR FOREIGN VERSION PRINTS IS BACK TO NORMAL.

TECHNICOLOR Motion Picture Corporation

HERBERT T. KALMUS

President and General Manager

PINE-THOMAS

announces

A New Departure in Production Policy

¶ Encouraged by the solid exhibitor support given our limited budget pictures during the past eight years, we turned to the big picture market for the first time with "ALBUQUERQUE."

¶ Based on a famed best-seller, cast with four front-line western stars and photographed in Cinecolor, "ALBU-QUERQUE" deserved and received top playing time and the box-office results were most gratifying.

¶ Henceforth, we will devote our efforts exclusively to the production of three important top-budget attractions annually.

DIGEST ANNUAL

Twelve Years Young

- There was a time when a motion picture trade publication that had reached its fifth birthday could consider itself bewhiskered with dignity and old age.
- The demand for REAL SERVICE on the part of its trade press is a weeding out process in this highly competitive industry.
- ¶ So it is that with due humility, and only a faint twinkling trace of our pride showing, that we present the twelfth issue of Box Office Digest Annual.
- ¶ We humbly feel that the twelfth milestone is evidence of past service delivered, of continued justification of the place of *Box Office Digest* in this industry.
- ¶ And we confidently hope, with continued improved service, to earn transportation past many more milestones.
- We are again happy, and proud, of the outstanding character of the many friends, producers, directors, actors and actresses, whose cooperation has made this issue so representative of the best in our industry.
- ¶ Judging people by the company they keep, and judging a paper by the people who like its company any way you take it, there is a rosy glow of self-satisfaction for all concerned in each succeeding edition of Box Office Digest Annual.

- Robert E. Welsh

- Norman E. Webb

EDITOR'S NOTE: The financial statements published above are for the fiscal year from January 1st to December 31st if such reports were published; of not, they are for the nearest similar period. The BOX OFFICE DIGEST figures and statistics were compiled b yNORMAN WEBB. The financial statements were furnished through the courtesy of E. F. HUTTON AND COMPANY, members of the New York Stock Exchange.

MAJOR PRODUCER-DISTRIBUTORS DROP OFF \$36,000,000.00

All of the major producing-distributing corporations for the year 1947 showed net profits of a little over \$89,000,000.00. As compared to the previous year when all of the companies showed a profit of \$126,000.000.00, which was an all-time high, the drop-off in net profits is about \$36,000,000.00.

While local business conditions were off a small amount during the latter part of 1947, most of this loss can be attributed to the English tax on American pictures. In 1946 the American film companies collected a little over \$68,000,000.00 from England. According to the present quota, the United States film companies are supposed to collect \$17,000,000.00 annually from England, although at this writing, this seems rather doubtful.

EXPLANATION: Based on continually revised Box OFFICE DIGEST theater records a rating of 100 per cent is set up for the average profitable run of any altraction at the individual theaters. . . As pictures go above or below that 100 per cent in box office receipts on different engagements their drawing power may be judged. . . . Pictures are listed after a sufficient number of first run reports are received for an over-all view of the country. . . Subsequently pictures usually go up, or go down, and the tables on this page are revised accordingly. . . . Groupings by A, B. C. D columns refer to approximate production cost.

Digest Figures Are Accurate

WALT DISNEY

Presents for 1948
